ij) Financial Assets That Are Debt Instruments Measured At Amoriised Cost

undiscounted amount of the cash or other consideration expected to be received. interest method. Debt instruments that are classified as current assets are measured at the After initial recognition, debt instruments are measured at amortised cost using the effective

exactly discounts estimate future cash receipts through the expected life of the financial assets or, allocating the interest income over the relevant period. The effective interest rate is the rate that when appropriate, a shorter period, to the carrying amount of the financial assets. Effective interest method is a method of calculating the amortised cost of financial assets and of

iii) Financial Assets That Are Equity Instruments Measured At Cost Less Impairment

reliably without undue cost or effort, and contracts linked to such instruments that, if exercised, will result in delivery of such instruments, are measured at cost less impairment. Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured

iv) Impairment Of Financial Assets

that financial assets that are measured at cost or amortised cost, are impaired At the end of each reporting period, the Company assesses whether there is any objective evidence

Objective evidence could include:

- significant financial difficulty of the issuer; or
- a breach of contract; or
- the lender granting to the borrower a concession that the lender would not otherwise consider;
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- observable data indicating that there is a measurable decrease in the estimated future cash flows from the financial assets since the initial recognition of those assets.

collectively assessed for impairment significant or not, the assets are included in a group with similar credit risk characteristics and objective evidence of impairment exists For certain category of financial assets, such as trade receivables, if it is determined that no for an individually assessed financial asset, whether

2.6 FINANCIAL ASSETS (CONTINUED)

iv) Impairment Of Financial Assets (continued)

flows discounted at the assets' original effective interest rate. differences between the assets' carrying amounts and the present values of their estimated cash Impairment losses, in respect of financial assets measured at amortised cost, are measured as the

between the asset's carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. If there is objective evidence that impairment losses have been incurred on financial assets measured at cost less impairment, the amount of impairment losses are measured as the difference

impairment loss decreases, the previously recognised impairment losses are reversed directly, except for the amounts related to trade receivables which are reversed to write back the amount loss is recognised in profit or loss immediately. If, in subsequent period, the amount of an of trade receivables which are reduced through the use of an allowance account. Any impairment The carrying amounts of the financial assets are reduced directly, except for the carrying amounts previously provided in the allowance account. The reversal is recognised in profit or loss

v) Derecognition Of Financial Assets

Financial assets are derecognised when the contractual rights to the cash flows from the financial and rewards of ownership of the financial assets. assets expire, or are settled, or the Company transfers to another party substantially all of the risks

On derecognition of financial assets in their entirety, the differences between the carrying amounts profit or loss in the period of the transfer and the sum of the consideration received and any cumulative gains or losses are recognised in

2.7 CASH AND CASH EQUIVALENT

or less from the date of acquisition, net of bank overdrafts. bank deposits and other short-term, highly liquid investments that have a short maturity of three months Cash and cash equivalents in the statement of cash flows comprise cash and bank balances, short-term

2.8 LIABILITIES AND EQUITY

i) Classification Of Liabilities And Equity

contractual arrangement, not merely its legal form, and in accordance with the definitions of a Financial liabilities and equity instruments are classified in accordance with the substance of the financial liability and an equity instrument

2.8 LIABILITIES AND EQUITY (CONTINUED)

ii) Equity Instruments

Ordinary shares are classified as equity

transaction costs. If payment is deferred and the time value of money is material, the initial issued as part of a business combination or those accounted for in paragraph 22.15A to 22.15B, after deducting all of its liabilities. Equity instruments issued by the Company, other than those measurement shall be on a present value basis. are measured at the fair value of the cash or other resources received or receivable, net of Equity instruments are any contracts that evidence a residual interest in the assets of the Company

Distributions to owners are deducted from the equity. Related income tax is accounted for in accordance with Section 29 of the MPERS

2.9 FINANCIAL LIABILITIES

party to the contractual provisions of the instrument. Financial liabilities are recognised in the statement of financial position when the Company becomes a

constitutes, in effect, a financing transaction for the Company to the arrangement. On initial recognition, financial liabilities are measured at transaction price, include transaction costs for financial liabilities not measured at fair value through profit or loss, unless the arrangement

or loan commitments measured at cost less impairment. liabilities measured at fair value through profit or loss, financial liabilities measured at amortised cost, After initial recognition, financial liabilities are classified into one of three categories: financial

Ü Financial Liabilities Measured At Fair Value Through Profit Or Loss

are within the scope of Section 12 of the MPERS or if the financial liabilities are publicly traded Financial liabilities are classified as at fair value through profit or loss when the financial liabilities or their fair value can otherwise be measured reliably without undue cost or effort.

publicly traded but is measured at fair value through profit or loss, its fair value at the last date that If a reliable measure of fair value is no longer available for an equity instrument that is not this cost amount less impairment until a reliable measure of fair value becomes available instrument was reliably measurable is treated as the cost of the instrument, and it is measured at

2.9 FINANCIAL LIABILITIES (CONTINUED)

ii) Financial Liabilities Measured At Amortised Cost

are recognised in profit or loss when the financial liabilities are derecognised or impaired profit or loss are measured at amortised cost using the effective interest method. Gains or losses After initial recognition, financial liabilities other than financial liabilities at fair value through

exactly discounts estimate future cash payments through the expected life of the financial of allocating the interest expense over the relevant period. The effective interest rate is the rate that Effective interest method is a method of calculating the amortised cost of financial liabilities and liabilities or, when appropriate, a shorter period, to the carrying amount of the financial liabilities.

iii) Loan Commitments Measured At Cost Less Impairment

at cost less impairment Commitments to receive loan that meet the conditions of Section 11 of the MPERS are measured

iv) Derecognition Of Financial Liabilities

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

consideration paid is recognised in profit or loss Any difference between the carrying amounts of the financial liabilities derecognised and the
